## Legend

Scientific	Common Name	R.	C.	L.	ST	PT	W	Water use
------------	-------------	----	----	----	----	----	---	-----------

R.-Residential, C.-Commercial, Institutional, Industrial, ST- Street Tree, L- Landscape District, PT- Plant Type, W-Plant Width

### Cactus & Succulents

Aguave Americana	Century Plant	X	X			H	5	RRR
------------------	---------------	---	---	--	--	---	---	-----

#### Column Legend

1<sup>st</sup> Column – Plant Scientific Name

2<sup>nd</sup> Column – Plant Common Name

3<sup>rd</sup> Column – X indicates approved for Residential Landscape applications.

4<sup>th</sup> Column – X indicates approved for Commercial, Institutional, and Industrial Landscape applications.

5<sup>th</sup> Column – X indicates approved to plant in City’s public right-of-way

6<sup>th</sup> Column – X indicates approved for City Street Tree application.

7<sup>th</sup> Column – Provides plant type designation; D - Deciduous, E - Evergreen, C - conifer, H – Herbaceous

8<sup>th</sup> Column – Number indicates width or coverage of plant (size to be drawn at and for water use calculation).

9<sup>th</sup> Column – Water use indicator (one sun -high water use, two suns -average, three suns -low water use, four suns -very low water use)

#### Example:

In the category of Cactus & Succulents, Agave Americana (scientific name) otherwise known as the Century Plant (common name) is acceptable for Residential, Commercial, Institutional, and Industrial Landscape applications. It is not acceptable as a street tree. It is to be drawn landscape plans with a five foot radius for the purpose of coverage calculations and is considered a low water use plant.

TABLE OF CONTENTS

Ferns.....6  
Ground Covers .....7  
Ornamental Grass.....10  
Palms .....11  
Perennials .....12  
Shrubs.....14  
Trees.....24  
Vines .....29
